Final Maturity Date	09/01/22	05/01/18	05/01/16
Funding Source(s)	General Revenue Fund Appropriation	General Revenue Fund Appropriation	General Revenue Fund Appropriation

Notes:

- (A) The “Bonds Issued” balance includes bonds issued and refunded, but excludes refunding bonds in cases when issued. Also, not more than
- \$220 million in Highway Capital Improvements Bonds may be issued in any year.
 - \$50 million in Natural Resources Capital Facilities Bonds may be issued in any fiscal year.
 - \$120 million in Public Infrastructure Capital Improvements Bonds may be issued annually through fiscal year 2013 and not more than \$150 million may be issued annually in fiscal years 2014 through 2018; the total bonds issued may not exceed \$3.75 billion.
 - \$50 million in Conservation Projects Bonds may be issued in any fiscal year.
 - \$100 million in Third Frontier Research and Development Projects Bonds may be issued in each of the first three fiscal years and not more than \$50 million in any other fiscal year.
 - \$30 million in Third Frontier Job Ready Site Development Bonds may be issued in each of the first three fiscal years and not more than \$15 million in any other fiscal year.
- (B) The “Outstanding Bonded Debt “balance excludes bonds refunded, but includes refunding bonds in cases when issued. Also, not more than
- \$1.2 billion in Highway Capital Improvements Bonds may be outstanding at any time.
 - \$100 million in Coal Research and Development Bonds may be outstanding at any time.
 - \$200 million in Natural Resources Capital Facilities Bonds may be outstanding at any time.
 - \$200 million in Conservation Projects Bonds may be outstanding at any time.
- (C) The “Total Interest Cost to Maturity” and “Remaining Interest through Maturity” balances for the Common Schools Capital Facilities Bonds and the Public Infrastructure Capital Improvements Bonds include estimates for interest payable on variable rate bonds in the future.
- (D) The amounts of general obligations authorized for Common Schools Facilities and for Higher Education Facilities have been reduced by \$800 million and \$950 million, respectively, as a result of proceeds generated by the Buckeye Tobacco Settlement Financing Authority, which will be used to fund such purposes for fiscal year 2008 and 2009 in lieu of bonded debt.

STATE OF OHIO

STATE OF OHIO
General Obligation Bond Ratings

The table below shows the underlying ratings that have been assigned by the three major bond rating agencies, exclusive of any credit enhancement that may be attached to a particular issue.

Ratings in effect from time to time reflect only the views of the particular rating organization. An explanation of a specific rating agency's view on the meaning and significance of its assigned ratings may be obtained from the respective rating agency. There can be no assurance that the ratings assigned will continue for any given time, or that a rating will not be lowered or withdrawn by a rating agency if in its judgment circumstances so warrant.

On February 16, 2007, Moody's announced it had changed its "credit outlook" for the State from "stable" to "negative." According to Moody's, a change in "outlook" is not a ratings change, but does convey the rating agency's assessment that there are developing trends or events that could result in a more intensive assessment or ratings review. On December 15, 2008, Fitch announced it had changed its "credit outlook" for the State from "stable" to "negative." According to Fitch, a change in outlook is not a ratings change, but does indicate that a change is likely, although not inevitable, over the next one to two years.

State of Ohio Ratings Assigned to General Obligations As of December 31, 2008			
Purpose	Bond Rating Agencies		
	Fitch	Moody's	Standard & Poor's
Highway Capital Improvements	AA+	Aa1	AAA
Coal Research and Development	AA+	Aa1	AA+
Natural Resources Capital Facilities	AA+	Aa1	AA+
Common Schools Capital Facilities	AA+	Aa1	AA+
Higher Education Capital Facilities	AA+	Aa1	AA+
Public Infrastructure Capital Improvements	AA+	Aa1	AA+
Conservation Projects	AA+	Aa1	AA+
Third Frontier Research and Development Projects and Job Ready Site Development	AA+	Aa1	AA+

HIGHWAY CAPITAL IMPROVEMENTS BONDS

Section 2m of Article VIII, Ohio Constitution, as approved by voters on November 7, 1995, authorizes the issuance of Highway Capital Improvements Bonds. The vote was: Yes—1,398,467; No—856,505.

Highway Capital Improvement Bonds finance the acquisition, construction, reconstruction, expansion, improvement, planning and equipping of highways, including those on the state highway system and urban extensions thereof, those within or leading to public parks or recreation areas, and those within or leading to municipal corporations, and for participation in such highway capital improvements with municipal corporations, counties, townships, or other governmental entities as designated by law, or any one or more of them, by grants, loans, or contributions to them for any such capital improvements.

Not more than \$220 million in bond principal, plus the principal of Highway Capital Improvements Bonds that in any prior fiscal years could have been but were not issued within the \$220 million fiscal-year limit, can be issued in any fiscal year, and not more than \$1.2 billion in bond principal can be outstanding at any one time.

Highway Capital Improvements Bonds mature in not more than 30 years from the date of issuance, or if issued to retire or refund other obligations, within 30 years from the date the debt originally was contracted.

The moneys referred to in Section 5a of Article XII, Ohio Constitution, can be pledged to the payment of debt service on Highway Capital Improvements Bonds from the Highway Capital Improvement Bond Service Fund, as created under Section 151.06, Ohio Revised Code. In each year that moneys referred to in Section 5a of Article XII, Ohio Constitution, pledged to the payment of debt service on Highway Capital Improvements Bonds are available for such purpose, the moneys are to be appropriated thereto and the required application of any other excises and taxes are reduced in corresponding amount.

Section 2m of Article VIII, Ohio Constitution, was initially implemented by the General Assembly with the adoption of Senate Bill 257, in 1996, which enacted Sections 5528.51 to 5528.56, Ohio Revised Code.

The authority to issue Highway Capital Improvements Bonds in amounts authorized by the General Assembly was conferred upon the Sinking Fund Commission in

House Bill 257. The Commission's authority to issue additional Highway Capital Improvements Bonds was withdrawn, however, when provisions in House Bill 640 became effective on September 14, 2000. The law enacted Sections 151.01 and 151.06, Ohio Revised Code, which called upon the Treasurer of State to become the issuer of the bonds. Section 52 of House Bill 640 provides for the Treasurer of State to supersede the Sinking Fund Commission in all matters relating to the bonds.

The authority to issue Highway Capital Improvements Bonds has been granted by the following legislation:

Legislation	General Assembly Session	Amount of Authorization
Senate Bill 257	121st	\$340,000,000
House Bill 210 (as amended by Senate Bill 230)	122nd	432,500,000
House Bill 163	123rd	320,000,000
House Bill 73	124th	257,500,000
House Bill 87	125th	420,000,000
House Bill 68	126th	360,000,000
House Bill 67	127th	290,000,000
Total Authorizations, as of December 31, 2008		<u>\$2,420,000,000</u>

Legislation authorizing the issuance of Highway Capital Improvements Bonds further requires that the obligations be issued from time to time in such amounts as necessary to provide sufficient moneys to the credit of the Highway Capital Improvement Fund, a fund created under Section 5528.53, Ohio Revised Code, to pay costs charged to that fund when due as estimated by the Director of Transportation.

Future bond service requirements for the Highway Capital Improvements Bonds, as of December 31, 2008, are as follows:

	Principal	Interest	Total
January 1 through June 30, 2009.....	\$ 159,000,000	\$ 19,225,907	\$ 178,225,907

In addition to the December 31, 2008 cash balance reported above for the Highway Capital Improvements Bond Service Fund, the Sinking Fund Commission had \$55,200 in cash and investments on hand in a custodial fund with the Treasurer of State's office. The balance represents \$517 in investment earnings, which was transferred to the Highway Capital Improvements Bond Service Fund in January 2009; and \$54,683 in administrative fees that remain unspent.

COAL RESEARCH AND DEVELOPMENT BONDS

Section 15 of Article VIII, Ohio Constitution, as approved by voters on November 5, 1985, authorizes the issuance of Coal Research and Development Bonds. The vote was: Yes—1,439,344; No—807,647.

Coal Research and Development Bonds provide the financing for financial assistance for research and development of coal technology that will encourage the use of Ohio coal.

Not more than \$100 million in bond principal can be outstanding at any one time.

Funds to retire the bonds are paid when due, as to principal and interest, by a transfer of the Treasurer of State, of the amount certified by the Ohio Coal Development Office, from the State's General Revenue Fund to the Coal Research and Development Bond Service Fund, a fund created under Section 151.07, Ohio Revised Code.

Section 15 of Article VIII, Ohio Constitution, was initially implemented by the General Assembly with the adoption of House Bill 750, in 1986, which enacted Sections 1555.01 et seq., Ohio Revised Code, and with the adoption from time to time of laws authorizing the issuance of Coal Research and Development Bonds and appropriating the proceeds for the purposes for which the bonds may be issued.

The authority to issue Coal Research and Development Bonds in amounts authorized by the General Assembly was conferred upon the Sinking Fund Commission in House Bill 750. The Commission's authority to issue additional Coal Research and Development Bonds was withdrawn, however, when provisions in House Bill 640 became effective on September 14, 2000. The law enacted Sections 151.01 and 151.07, Ohio Revised Code, which called upon the Ohio Public Facilities Commission to become the issuer of the bonds. Section 52 of House Bill 640 provides for the

Ohio Public Facilities Commission to supersede the Sinking Fund Commission in all matters relating to the bonds.

The authority to issue Coal Research and Development Bonds has been granted by the following legislation:

Legislation	General Assembly Session	Amount of Authorization
Senate Bill 206	119th	\$50,000,000
House Bill 298	119th	50,000,000
House Bill 152	120th	50,000,000
House Bill 66	126th	15,000,000
House Bill 554	127th	66,000,000
Total Authorizations, as of December 31, 2008		\$231,000,000

The legislation for each authorized issuance of Coal Research and Development Bonds further provides that the bonds are to be dated, issued, and sold from time to time in such amounts as necessary to provide sufficient moneys to the credit of the Coal Research and Development Fund, a fund created under Section 1555.15, Ohio Revised Code, to pay program costs charged to the fund, as determined by the Director of the Ohio Coal Development Office.

Future bond service requirements for the Coal Research and Development Bonds, as of December 31, 2008, are as follows:

	Principal	Interest	Total

NATURAL RESOURCES CAPITAL FACILITIES BONDS

Section 2I of Article VIII, Ohio Constitution, as approved by voters on November 2, 1993, authorizes the issuance of Natural Resources Capital Facilities Bonds. The vote was: Yes—1,547,841; No—1,008,182.

Natural Resources Capital Facilities Bonds finance or assist in the financing of the costs of capital improvements for state and local parks and land and water recreation facilities; soil and water restoration and protection, land management, including preservation of natural areas and reforestation; water management, including dam safety, stream, and lake management, and flood control and flood damage reduction; fish and wildlife resource management; and other projects that enhance the use and enjoyment of natural resources by individuals. Such capital improvements include, without limitation, the cost of acquisition, construction, reconstruction, expansion, improvement, planning, and equipping.

Not more than \$50 million in principal can be issued in any fiscal year, and not more than \$200 million in principal can be outstanding at any one time

Natural Resources Capital Facilities Bonds mature not more than 25 years from the date of issuance, or, if issued to retire or refund other obligations issued under this section, within 25 years from the date the debt was originally contracted.

Funds to retire the bonds issued are paid when due, as to principal and interest, by a transfer from the State's General Revenue Fund to the Natural Resources Projects Bond Service Fund, as created under Section 151.05, Ohio Revised Code. The Commissioners of the Sinking Fund certify to the Director of Budget and Management the amount necessary to pay the bonds when due. Upon consultation with the Director, the Commissioners of the Sinking Fund transfer the amount so certified.

The General Assembly initially implemented Section 2I of Article VIII, Ohio Constitution, with the adoption of House Bill 790, in 1994, which enacted Sections 1557.01 et seq., Ohio Revised Code, and appropriated the proceeds for purposes for which the bonds are issued.

The authority to issue Natural Resources Capital Facilities Bonds in amounts authorized by the General Assembly was conferred upon the Sinking Fund Commission in House Bill 790. The Commission's authority

to issue additional Natural Resources Capital Facilities Bonds was withdrawn, however, when provisions in House Bill 640 became effective on September 14, 2000. The law enacted Sections 151.01 and 151.05, Ohio Revised Code, which called upon the Ohio Public Facilities Commission to become the issuer of the bonds. Section 52 of House Bill 640 provides for the Ohio Public Facilities Commission to supersede the Sinking Fund Commission in all matters relating to the bonds.

The authority to issue Natural Resources Capital Facilities Bonds has been granted by the following legislation:

Legislation	General Assembly Session	Amount of Authorization
House Bill 790	120th	\$100,000,000
House Bill 748	121st	80,000,000
House Bill 850	122nd	48,000,000

Note:

In addition to the December 31, 2008 cash balance reported above for the Natural Resources Projects Bond Service Fund, the Sinking Fund Commission had \$13,820 in cash and investments on hand in a custodial fund with the Treasurer of State's office. The balance represents \$149 in investment earnings, which was transferred to the Natural Resources Projects Bond Service Fund in January 2009; and \$13,671 in administrative fees that remain unspent.

COMMON SCHOOLS CAPITAL FACILITIES BONDS

Section 2n of Article VIII, Ohio Constitution, as approved by voters on November 2, 1999, authorizes the issuance of Common Schools Capital Facilities Bonds. The vote was: Yes—1,285,277; No—828,426.

Common Schools Capital Facilities Bonds finance the costs of facilities for a system of common schools throughout the state. Such costs include, without limitation, the cost of acquisition, construction, improvement, expansion, planning, and equipping.

Common Schools Capital Facilities Bonds mature not later than December 31 of the 25th calendar year after issuance, except that obligations issued to refund other obligations mature not later than December 31 of the 25th calendar year after the year in which the original obligation to pay was issued.

Section 2n of Article VIII, Ohio Constitution, was initially implemented by the General Assembly with the adoption of Senate Bill 206 in 1999. This legislation set forth, in uncodified law, temporary authority for the Treasurer of State to issue obligations under this section in an aggregate principal amount not to exceed \$150 million (of which \$140 million was issued) and specified the purposes and application of the proceeds of such obligations. There is not a limitation specified in the constitution as to the amount of bond principal that can be outstanding at any one time of the total par amount of bonds issued within a given year.

Subsequent to the passage of Senate Bill 206 and the initial issuance of obligations under this section by the Treasurer of State, the General Assembly passed House Bill 640, which enacted Sections 151.01 and 151.03, Ohio Revised Code, effective September 14, 2000, providing for the issuance of Common Schools Capital Facilities Bonds after that date by the Ohio Public Facilities Commission. Section 52.05 of House Bill 640 provides for the Ohio Public Facilities Commission to supersede the Treasurer of State in all matters relating to the bonds.

Funds to pay debt service and financing costs on the bonds are provided by a transfer from the State's General Revenue Fund and, in the judgment of the Director of the Office of Budget and Management, from net state lottery proceeds in the State Lottery Fund or the Lottery Profits Education Fund, to the Common

Schools Capital Facilities Bond Service Fund, as created under Section 151.03, Ohio Revised Code. Certification is made to the Director of Budget and Management as to the amount of moneys required, and the sources of that money, during the fiscal year to meet all debt service and financing costs in full.

The authority to issue Common Schools Capital Facilities Bonds has been granted by the following legislation:

Legislation	General Assembly Session	Amount of Authorization
Senate Bill 206	123rd	\$140,000,000
House Bill 640	123rd	810,000,000
House Bill 94	124th	300,000,000
Senate Bill 261	124th	345,000,000
House Bill 675	124th	265,000,000
Senate Bill 189	125th	522,000,000
House Bill 95	125th	123,000,000
House Bill 16	126th	530,000,000
House Bill 530	126th	580,000,000
House Bill 699	126th	530,000,000
House Bill 562 ^(A)	127th	(800,000,000)
Total Authorizations, as of December 31, 2008		<u>\$3,345,000,000</u>

Future bond service requirements for the Common Schools Capital Facilities Bonds, as of December 31, 2008, are as follows:

	Principal	Interest ^(B)	Total
January 1 through June 30, 2009.....	\$ 93,045,000	\$ 64,309,397	\$ 157,354,397
FY Ending June 30,			
2010	138,625,000	123,127,986	261,752,986
2011	143,540,000	116,524,608	260,064,608
2012	149,365,000	109,922,195	259,287,195
2013	155,235,000	102,800,511	258,035,511
2014-2018	816,960,000	398,290,889	1,215,250,889
2019-2023	935,630,000	188,117,125	1,123,747,125
2024-2027	296,150,000	22,020,928	318,170,928
Total	<u>\$2,728,550,000</u>	<u>\$1,125,113,639</u>	<u>\$3,853,663,639</u>

(A)The amounts of general obligations authorized for Common Schools Facilities have been reduced by \$800 million as a result of proceeds generated by the Buckeye Tobacco Settlement Financing Authority, which will be used to fund such purposes for fiscal year 2008 and 2009 in lieu of bonded debt.

(B)The future funding of interest amounts in the above table include estimates calculated for the variable rate bonds using an interest rate of 4.00 percent through maturity. The variable interest rate paid to bondholders is reset weekly until the variable rate bonds mature.

STATE OF OHIO
SCHEDULE OF COMMON SCHOOLS CAPITAL FACILITIES BONDS
As of December 31, 2008
(Continued)

Notes:

(A) Series 2003E, Series 2004C, and Series 2005D bonds refunded the following Common Schools Capital Facilities Bonds:

	Series 2003E		Series 2004C		Series 2005D		Refunding Bonds	
	Principal Refunded	Maturities Refunded	Principal Refunded	Maturities Refunded	Principal Refunded	Maturities Refunded	Total	Original Principal
Series 1999A	\$ 57,550,000	2010-2014	\$ -	-	\$ -	-	\$ 57,550,000	Series 2003E \$ 58,235,000
Series 2001A	-	-	9,615,000	2011	79,425,000	2015-2020	89,040,000	Series 2004C 18,880,000
Series 2004A	-	-	9,735,000	2015	-	-	9,735,000	Series 2005D 71,900,000
	<u>\$ 57,550,000</u>		<u>\$ 19,350,000</u>		<u>\$ 79,425,000</u>		<u>\$ 156,325,000</u>	Total \$ 149,015,000

(B) The interest rate for the Series 1999A bonds reflects the net interest cost.

(C) A fixed rate of 2.45 percent applied until mid-September 2007 at which time the bonds were subject to mandatory put for conversion to a variable rate with a weekly reset until maturity. In 2024, Therefore, the "Total Estimated Interest to Maturity" balance reported for the Series 2003D bonds was calculated on the basis of the 2.45-percent fixed interest rate in effect from the December 2003 issuance date on through September 14, 2007, and an estimated 4.00-percent adjustable rate effective from September 14, 2007 through the last maturity on March 15, 2024.

In September 2007, the State entered into a floating to fixed interest rate swap that will be in effect until March 15, 2024. Under this agreement, the State pays a 3.414-percent fixed rate to the counterparties while the counterparties pay a floating rate subject to a weekly reset on the basis of the London Interbank Offer Rate (LIBOR) Index, with terms of 65 percent of one-month LIBOR +25 basis-points. Prior to this agreement, the State participated in a fixed to floating agreement under which the counterparties paid a 2.665-percent fixed rate while the State paid the counterparties a floating rate subject to a weekly reset on the bases of the Bond Market Association (BMA) Index. This agreement terminated on September 1, 2007. Since the time of issuance of the Series 2003D bonds and through December 31, 2008, the State has received \$1,186,870 and paid \$1,516,708 in net interest rate swap transaction with counterparties. The Sinking Fund Commission accounts for the swap transactions in the Common Schools Capital Facilities Bond Service Fund.

(D) The "Total Estimated Interest to Maturity" balances reported for the variable rate Series 2005A and Series 2005B bonds were calculated on the basis of an estimated interest rate of 4.00 percent through maturity. The variable interest rate paid to bondholders is reset weekly until maturity in 2025.

The State has entered into two separate floating to fixed interest rate swap agreements with the following terms: Swap #1 effective date of agreement from March 15, 2007 through March 15, 2025 with a fixed interest rate of 3.75-percent paid by the State and a variable interest rate of 62-percent of 10-year LIBOR (constant maturity swap) paid by the counterparties; Swap #2 effective date of agreement from January 15, 2008 through March 15, 2010 with a fixed interest rate of 3.75-percent paid by the State and a variable interest rate of 67-percent of one-month LIBOR +72.6 basis-points paid the the counterparties. Prior to the two agreements, the State participated in a floating to fixed agreement under which the State paid a 4.081-percent fixed rate while the counterparties paid a variable rate, which was reset on the basis of the BMA Index. This agreement terminated on March 15, 2007. Since the time of issuance of the Series 2005A and Series 2005B bonds and through December 31, 2008, the State has paid \$2,881,237 and \$2,881,348, respectively for each deal, in net interest rate swap transactions with counterparties. The Sinking Fund Commission accounts for the swap transactions in the Common Schools Capital Facilities Bond Service Fund.

(E) The "Total Estimated Interest to Maturity" balances reported for the variable rate Series 2006B and Series 2006C bonds were calculated on the basis of an estimated interest rate of 4.00 percent through maturity. The variable interest rate paid to bondholders is reset weekly until maturity in 2026.

The State has entered into a floating to fixed interest rate swap agreement that will be in effect until June 15, 2026. Under the agreement, the State pays the 3.202-percent fixed rate to the counterparties while the counterparties pay a variable rate on the basis of the LIBOR with terms of 65 percent of one-month LIBOR+25 basis-points. Since the time of issuance of the Series 2006B and Series 2006C bonds and through December 31, 2008, the State has received \$820,366 and \$820,366, and has paid \$883,359 and \$883,359, respectively for each deal, in net interest rate swap transactions with counterparties.

Note:

In addition to the December 31, 2008 cash balance reported above for the Common Schools Capital Facilities Bond Service Fund, the Sinking Fund Commission had \$164,716 in cash and investments on hand in a custodial fund with the Treasurer of State's office. The balance represents \$1,364 in investment earnings, which was transferred to the Common Schools Capital Facilities Bond Service Fund in January 2009; and \$163,352 in administrative fees that remain unspent.

HIGHER EDUCATION CAPITAL FACILITIES BONDS

Section 2n of Article VIII, Ohio Constitution, as approved by voters on November 2, 1999, authorizes the issuance of Higher Education Capital Facilities Bonds. The vote was: Yes—1,285,277; No—828,426.

Higher Education Capital Facilities Bonds finance the costs of facilities for state-supported and state-assisted institutions of higher education. Such costs include, without limitation, the cost of acquisition, construction, improvement, expansion, planning, and equipping.

Higher Education Capital Facilities Bonds mature not later than December 31 of the 25th calendar year after issuance, except that obligations issued to refund other obligations mature not later than December 31 of the 25th calendar year after the year in which the original obligation to pay was issued.

Section 2n of Article VIII, Ohio Constitution, was initially implemented by the General Assembly with the adoption of Senate Bill No. 206, in 1999. This legislation set forth, in uncodified law, temporary authority for the Ohio Public Facilities Commission to issue obligations under this section in an aggregate principal amount not to exceed \$150 million (all of which was issued) and specified the purposes and application of the bond proceeds. There is not a limitation specified in the constitution as to the amount of bond principal that can be outstanding at any one time of the total par amount of bonds issued within a given year.

Subsequent to the passage of Senate Bill 206 and the initial issuance of obligations under this section, the General Assembly passed House Bill 640, which enacted Sections 151.01 and 151.04, Ohio Revised Code, effective September 14, 2000, providing for the issuance of Higher Education Capital Facilities Bonds after that date by the Ohio Public Facilities Commission.

Funds to pay debt service and financing costs on the bonds issued under this section are provided by a transfer from the State's General Revenue Fund to the Higher Education Capital Facilities Bond Service Fund, as created under Section 151.04, Ohio Revised Code.

The authority to issue Higher Education Capital Facilities Bonds has been granted by the following legislation:

Legislation	General Assembly Session	Amount of Authorization
Senate Bill 206	123rd	\$150,000,000
House Bill 640	123rd	1,061,310,000
Senate Bill 261	124th	50,000,000
House Bill 675	124th	536,690,000
Senate Bill 189	125th	53,000,000
House Bill 16	126th	476,000,000
House Bill 530	126th	54,000,000
House Bill 699	126th	576,000,000
House Bill 562 ^(A)	127th	(344,000,000)
Total Authorizations, as of December 31, 2008		<u>\$2,613,000,000</u>

Future bond service requirements for the Higher Education Capital Facilities Bonds, as of December 31, 2008, are as follows:

	Principal	Interest	Total
January 1 through June 30, 2009.....	\$ 57,710,000	\$ 38,330,444	\$ 96,040,444
<u>FY Ending June 30,</u>			
2010.....	86,230,000	73,472,009	159,702,009

2019-2023.....	515,470,000	104,686,071	620,156,071
2024-2027.....	138,785,000	11,868,050	150,653,050
Total.....	<u>\$1,564,135,000</u>	<u>\$649,785,245</u>	<u>2,213,920,245</u>

(A)The net reduction of general obligations authorized for Higher Education Facilities is a result of \$950 million in proceeds generated by the Buckeye Tobacco Settlement Financing Authority, which will be used to fund such purposes for fiscal year 2008 and 2009 in lieu of bonded debt (Am. Sub. HB 562, Sec. 518.03), plus \$606 million in additional obligations authorized (Am. Sub. HB 562, Sec. 233.60.30).

In addition to the December 31, 2008 cash balance reported above for the Higher Education Capital Facilities Bond Service Fund, the Sinking Fund Commission had \$55,192 in cash and investments on hand in a custodial fund with the Treasurer of State's office. The balance represents \$508 in investment earnings, which was transferred to the Higher Education Capital Facilities Bond Service Fund in January 2009; and \$54,684 in administrative fees that remain unspent.

PUBLIC INFRASTRUCTURE CAPITAL IMPROVEMENTS BONDS

Section 2k of Article VIII, Ohio Constitution, as approved by voters on November 3, 1987, originally authorized the issuance of Public Infrastructure Capital Improvements Bonds.

The bonds financed or assisted in the financing of the costs of public infrastructure capital improvements of municipal corporation, counties, townships, and other governmental entities as designated by law. Capital improvements include, without limitation, the cost of acquisition, construction, reconstruction, expansion, improvement, planning, and equipping.

Under the original authorization, not more than \$120 million in principal could be issued in any calendar year, provided, however that the aggregate total principal amount of bonds and other obligations issued did not exceed \$1.2 billion. Of the authorized amount, the Treasurer of State issued bonds totaling \$1,199,986,136.

On November 7, 1995, voters approved Section 2m, Article VIII, Ohio Constitution, which authorized the issuance of additional Public Infrastructure Capital Improvements Bonds only after the State had exhausted its authority to issue under Section 2k. The vote was: Yes—1,389,467; No—856,505.

The additional bond issues finance or assist in the financing of the costs of public infrastructure capital improvements of municipal corporations, counties, townships, and other governmental entities as designated by law. The capital improvements are limited to roads and bridges, wastewater treatment systems, water supply systems, solid waste disposal facilities, and storm water and sanitary collection, storage, and treatment facilities, including real property, interests in real property, facilities, and equipment related to or incidental thereto, and include without limitation, the cost of acquisition, construction, reconstruction, expansion, improvement, planning, and equipping.

Not more than \$120 million in principal, plus the principal of Public Infrastructure Capital Improvements Bonds that in any prior fiscal years could have been but were not issued within the \$120 million fiscal-year limit, can be issued in any fiscal year, and not more

than \$1.2 billion in principal can be issued under this additional authority. If bonds are issued under this section to retire or refund obligations previously issued under this section the new bonds are not counted against those fiscal year or total issuance limitations to the extent that their principal amount does not exceed the principal amount of the obligations to be refunded or retired.

Public Infrastructure Capital Improvements Bonds mature in not more than 30 years from the date of issuance, or if issued to retire or refund other obligations, within 30 years from the date the debt originally was contracted.

Section 2k of Article VIII, Ohio Constitution, was initially implemented by the General Assembly with the adoption of House Bill No. 704, in 1988, which enacted Chapter 164, Ohio Revised Code, and appropriated the proceeds for the purposes for which the bonds were issued. The authority to issue Public Infrastructure Capital Improvements Bonds in amounts authorized by the General Assembly was conferred upon the Treasurer of State.

The statutory provisions regarding the application of proceeds from additional Public Infrastructure Capital Improvements Bonds under Section 2m was continued in Chapter 164, Ohio Revised Code, however, the 123rd General Assembly passed House Bill 640, which enacted Sections 151.01 and 151.08, Ohio Revised Code, effective September 14, 2000, providing for the issuance of Public Infrastructure Capital Improvements Bonds after that date. Nonetheless, with that change, the issuing authority remained the Treasurer of State.

Subsequently, the 126th General Assembly passed House Bill 16, which amended Section 151.01, Ohio Revised Code, providing for further issuance of such obligations by the Ohio Public Facilities Commission. Section 39.02 of House Bill 16, which went into effect on July 1, 2005, provides for the Ohio Public Facilities Commission to supersede the Treasurer of State in all matters relating to the obligations.

The authority to issue Public Infrastructure Capital Improvements Bonds has been granted by the following legislation:

Legislation	General Assembly Session	Amount of Authorization
All Acts Prior to Senate Bill 245	—	\$1,560,000,000
Senate Bill 245	123rd	240,000,000

Notes:

(A) The State has entered into a fixed to floating interest rate swap agreement that will be in effect until February 1, 2010. Under the agreement, the counterparty pays the 2.54-percent fixed rate on the notional amount of \$30,115,000 with the same principal amortization as the 2005-2010 maturities entered into relative to the Series 2003F bonds while the State pays the counterparty a floating rate subject to a weekly reset on the basis of the Bond Market Association (BMA) Index. Since the time of issuance of the Series 2003F bonds and through December 31, 2008, the State has received \$504,465 and paid \$387,591 in net interest rate swap transactions with the counterparty. The Sinking Fund Commission accounts for the swap transactions in the State Capital Improvements Bond Service Fund.

(B) The "Total Estimated Interest to Maturity" balance reported for the variable rate Series 2001B bonds was calculated on the basis of an estimated interest rate of 4.00 percent through maturity. The variable interest rate paid to bondholders is reset weekly until maturity in 2021.

The State has entered into a floating to fixed interest rate swap agreement that will be in effect until August 1, 2021. Under the agreement, the State pays the 4.63-percent fixed rate to the counterparties while the counterparties pay a variable rate, which is reset weekly on the basis of the BMA Index. Since the time of issuance of the Series 2001B bonds and through December 31, 2008, the State has paid \$10,459,122 in net interest rate swap transactions with counterparties. The Sinking Fund Commission accounts for the swap transactions in the State Capital Improvements Bond Service Fund.

STATE OF OHIO
SCHEDULE OF PUBLIC INFRASTRUCTURE CAPITAL IMPROVEMENTS BONDS
As of December 31, 2008
(Continued)

- (C) The "Total Estimated Interest to Maturity" balance reported for the variable rate Series 2003B bonds was calculated on the basis of an estimated interest rate of 2.96 percent through August 1, 2008, and 4.00 percent thereafter until maturity in 2017. The variable interest rate paid to bondholders is reset weekly until maturity in 2017. The State had entered into a floating to fixed interest rate swap agreement effective until August 1, 2008. Under the agreement, the State pays the 2.96-percent fixed rate to the counterparty while the counterparty pays a variable rate equal to the variable rate the State pays to the bond holders. From the time of issuance of the Series 2003B bonds and through August 1, 2008, the State has paid \$4,676,335 and received \$1,195,544 in net interest rate swap transactions with the counterparty. The Sinking Fund Commission accounts for the swap transactions in the State Capital Improvements Bond Service Fund.
- (D) The "Total Estimated Interest to Maturity" balance reported for the variable rate Series 2003D bonds was calculated on the basis of an estimated interest rate of 3.035 percent through February 1, 2010, and 4.00 percent thereafter until maturity in 2019. The variable interest rate paid to bondholders is reset weekly until maturity in 2019. The State has entered into a floating to fixed interest rate swap agreement that will be in effect until February 1, 2010. Under the agreement, the State pays the 3.035-percent fixed rate to the counterparty while the counterparty pays a variable rate equal to the variable rate the State pays to the bond holders. Since the time of issuance of the Series 2003D bonds and through December 31, 2008, the State has paid \$2,672,654 and received \$578,579 in net interest rate swap transactions with the counterparty.
- (E) The "Total Estimated Interest to Maturity" balances reported for the variable rate Series 2004A bonds were calculated on the basis of an estimated interest rate of 4.00 percent through maturity. The variable interest rate paid to bondholders is reset weekly until maturity in 2023. The State has entered into a floating to fixed interest rate swap agreement that will be in effect until February 1, 2023. Under the agreement, the State pays the 3.51-percent fixed rate to the counterparty while the counterparty pays a variable rate on the basis of the London Inter-Bank Offer Rate (LIBOR) Index, with terms of 63 percent of one-month LIBOR+25 basis-points, if the average is below 5.00 percent or 68 percent of the average one-month LIBOR-USD fixed rate, if the average rate is 5.00-percent or above. Since the time of issuance of the Series 2004A bonds and through December 31, 2008, the State has paid \$2,295,219 and received \$63,836 in net interest rate swap transactions with counterparty. The Sinking Fund Commission accounts for the swap transactions in the State Capital Improvements Bond Service Fund.

Note:

In addition to the December 31, 2008 cash balance reported above for the State Capital Improvements Bond Service Fund, the Sinking Fund Commission had \$227,657 in cash and investments on hand in a custodial fund with the Treasurer of State's office. The balance represents \$1,222 in investment earnings, which was transferred to the State Capital Improvements Bond Service Fund in January 2009; \$81,228 in bond proceeds held for cost of issuance; and \$145,207 in administrative fees that remain unspent.

CONSERVATION PROJECTS BONDS

Section 2o of Article VIII, Ohio Constitution, as approved by voters on November 7, 2000, authorizes the issuance of Conservation Projects Bonds. The vote was: Yes—2,197,773; No—1,628,716.

Conservation Projects Bonds provides financing to be used for conservation purposes, meaning conservation and preservation of natural areas, open spaces, and farmlands, and other lands devoted to agriculture, including by acquiring land or interests therein; provision of state and local park and recreation facilities, and other actions that permit and enhance the availability, public use and enjoyment of natural areas and open spaces in Ohio; and land, forest water, and other natural resources management projects.

Not more than \$50 million principal amount of Conservation Projects Bonds, plus the principal amount of those obligations that in any prior fiscal year could have been but were not issued within the \$50 million fiscal-year limit, can be issued in any fiscal year, and not more than \$200 million principal amount can be outstanding at any one time.

Conservation Projects Bonds mature not later than December 31 of the 25th calendar year after issuance, except that obligations issued to refund other obligations mature not later than December 31 of the 25th calendar year after the year in which the original obligation to pay was issued.

Section 2o of Article VIII, Ohio Constitution, was implemented by the General Assembly with the adoption of House Bill 3, in 2001, which amended Section 154.01 and Sections 901.21 through 901.23, Ohio Revised Code, enacted Section 154.09, Sections 164.20 through 164.27, and Sections 1519.05 and 1519.06, Ohio Revised Code, and appropriated the proceeds for the purposes for which the bonds may be issued. The authority to issue Conservation Projects Bonds in amounts authorized by the General Assembly was conferred upon the Ohio Public Facilities Commission in House Bill 3.

Funds to retire the bonds are paid when due, as to principal and interest, by a transfer from the State's

General Revenue Fund to the Conservation Projects Bond Service Fund, as created under Section 151.09, Ohio Revised Code. The Commissioners of the Sinking Fund certify to the Director of Budget and Management the amount necessary to pay the bonds when due. Upon consultation with the Director, the Commissioners of the Sinking Fund transfer the amount so certified.

The authority to issue Conservation Projects Bonds has been granted by the following legislation:

Legislation	General Assembly Session	Amount of Authorization
House Bill 3	124th	\$ 50,000,000
House Bill 675	124th	50,000,000
House Bill 16	126th	50,000,000
House Bill 530	126th	50,000,000
House Bill 562	127th	<u>40,000,000</u>
Total Authorizations, as of December 31, 2008		<u><u>\$240,000,000</u></u>

The legislation authorizing the issuance of Conservation Projects Bonds further requires the issuance of bond when the Ohio Public Works Commission certifies amounts needed for the purposes of the Clean Ohio Conservation Fund, created in Section 164.27, Ohio Revised Code, the Clean Ohio Agricultural Easement Fund, created in Section 901.21, Ohio Revised Code, and the Clean Ohio Trail Fund, created in Section 1519.05, Ohio Revised Code.

Future bond service requirements for the Conservation Projects Bonds, as of December 31, 2008, are as follows:

	Principal	Interest	Total
January 1 through June 30, 2009	\$ 5,760,000	\$ 3,674,616	\$ 9,434,616
<u>FY Ending June 30,</u>

THIRD FRONTIER RESEARCH AND DEVELOPMENT PROJECTS BONDS

On November 8, 2005, Ohio voters approved State Issue 1, a constitutional amendment that authorizes the State, under Section 2p of Article VIII, Ohio Constitution, to issue up to \$2 billion in general obligation bonds to improve local government infrastructure, support research and development applicable to high-tech business, and enhance business site development. The vote was: Yes—1,512,669; No—1,282,571.

The State is authorized to issue the Third Frontier Research and Development Projects Bonds to provide financial assistance for research and development in support of Ohio industry, commerce, and business, including research and product innovation, development, and commercialization as provided for by law, but excluding purposes provided for in Section 15 of Article VIII, Ohio Constitution. The amendment also authorizes state-supported and state-assisted institutions of higher education to issue obligations to pay costs of research and development purposes.

Third Frontier Research and Development Projects Bonds can be issued in each of the first three fiscal years to no more than \$100 million and in any other fiscal year to no more than \$50 million (plus the principal amount of those obligations that in any prior fiscal year could have been but were not issued).

Funds to retire the bonds are paid when due, as to principal and interest, by a transfer from the State's General Revenue Fund to the Third Frontier Research and Development Projects Bond Service Fund, as created under Section 151.10, Ohio Revised Code.

The authority to issue Third Frontier Research and Development Projects Bonds has been granted by the following legislation:

Legislation	General Assembly Session	Amount of Authorization
Senate Bill 236	126th	\$200,000,000
House Bill 119	127th	150,000,000
Total Authorizations, as of December 31, 2008		<u>\$350,000,000</u>

Future bond service requirements for the Third Frontier Research and Development Projects Bonds, as of December 31, 2008, are as follows:

	Principal	Interest	Total
January 1 through June 30, 2009.....	\$ 12,795,000	\$ 2,434,205	\$ 15,229,205

In addition to the December 31, 2008 cash balance reported above for the Third Frontier Research and Development Projects Bond Service Fund, the Sinking Fund Commission had \$43,352 in cash and investments on hand in a custodial fund with the Treasurer of State's office. The balance represents \$352 in investment earnings, which was transferred to the State Capital Improvements Bond Service Fund in January 2009; \$34,797 in bond proceeds held for cost of issuance; and \$8,203 in administrative fees that remain unspent.

THIRD FRONTIER JOB READY SITE DEVELOPMENT BONDS

On November 8, 2005, Ohio voters approved State Issue 1, a constitutional amendment that authorizes the State, under Section 2p of Article VIII, Ohio Constitution, to issue up to \$2 billion in general obligation bonds to improve local government infrastructure, support research and development applicable to high-tech business, and enhance business site development. The vote was: Yes—1,512,669; No—1,282,571.

For the development of sites and facilities (Job Ready Sites) in Ohio for and in support of industry, commerce, distribution, and research and development, the constitutional amendment limits Third Frontier Job Ready Site Development Bond issuances to \$150 million with no more than \$30 million in each of the first three fiscal years and no more than \$15 million in any other fiscal year (plus the principal amount of those obligations that in any prior fiscal year could have been but were not issued).

Funds to retire the bonds are paid when due, as to principal and interest, by a transfer from the State's General Revenue Fund to the Third Frontier Job Ready Site Development Bond Service Fund, as created under Section 151.11.

The authority to issue Third Frontier Job Ready Site Development Bonds has been granted by the following legislation:

Legislation	General Assembly Session	Amount of Authorization
Senate Bill 236	126th	\$30,000,000
House Bill 530	126th	30,000,000

In addition to the December 31, 2008 cash balance reported above for the Third Frontier Job Ready Site Development Bond Service Fund, the Sinking Fund Commission had \$5,519 in cash and investments on hand in a custodial fund with the Treasurer of State's office. The balance represents \$51 in investment earnings, which was transferred to the Third Frontier Job Ready Site Development Bond Service Fund in January 2009; and \$5,468 in administrative fees that remain unspent.

OVERVIEW OF RETIRED GENERAL OBLIGATION BOND ISSUES

This section of the semi-annual report provides historical information on the State of Ohio's general obligations bonds issued and retired in past years.

HIGHWAY OBLIGATIONS

Section 2i of Article VIII, Ohio Constitution, as approved by voters on November 5, 1968, authorized the issuance of Highway Obligations Bonds. The vote was: Yes— 1,732,512; No—1,550,959.

Highway Obligations Bonds financed construction, reconstruction or improvements for the state highway system. The bonds also provided funds for highway-related land acquisition, highway transportation research and development, and matching funds for joint projects with other governmental units. Section 5528.4, Ohio Revised Code, required that 50 percent of the first \$500 million paid into the Highway Obligations Construction Fund was to be used for urban extensions of state highways and highways within or leading to municipal corporations.

Not more than \$100 million in Highway Obligations Bonds was to be issued in any calendar year, and not more than \$500 million in principal was to be outstanding at any one time. Also, Highway Obligations Bonds could not be outstanding for more than 30 years.

On November 7, 1995, voters approved Section 2m of Article VIII, Ohio Constitution, authorizing the issuance of Highway Capital Improvements Bonds. Section 2m specifically provides that, after December 31, 1996, no additional Highway Obligations Bonds could be issued for any highway purposes under Section 2i of Article VIII, Ohio Constitution, except to refund highway obligations issued under Section 2i that were outstanding on that date.

The State issued all of the \$1.745 billion in Highway Obligations that had been authorized to be issued, and the bonds were fully retired by May 15, 2004.

DEVELOPMENT BONDS

Section 2h of Article VIII, Ohio Constitution, as approved by voters on May 4, 1965, authorized the issuance of Development Bonds. The vote was: Yes—715,642; No— 548,557.

The bonds financed the following: construction of buildings at state-assisted colleges and universities, including land purchases; development costs of state lands for water impoundment, flood control, parks and recreational uses, or conservation of natural resources;

development of state parks and recreational facilities, including construction, reconstruction and improvement of roads and highways; assistance to local governments for the costs of construction and extension of water and sewage lines and mains and the acquisition, construction, reconstruction, improvement, and equipping of water pipelines, stream flow improvements, airports, and historical or educational facilities.

The State issued all of the \$290 million in Development Bonds that had been authorized to be issued. The final maturity for the bonds was August 15, 1995.

PUBLIC IMPROVEMENTS BONDS

Section 2i of Article VIII, Ohio Constitution, as approved by voters on November 5, 1968, authorized the issuance of Public Improvements Bonds. The vote was: Yes—1,732,512; No—1,550,959.

Public Improvements Bonds financed the costs of water pollution control and abatement projects and various construction projects at state facilities.

The State issued all of the \$257 million in Public Improvements Bonds that had been authorized to be issued, and the bonds were fully retired by June 15, 1995.

HIGHWAY IMPROVEMENT BONDS

Section G of Article VIII, Ohio Constitution, as approved by voters on May 5, 1964, authorized the issuance of the issuance of Highway Improvement Bonds. The vote was: Yes—1,011,817; No—538,684.

Highway Improvement Bonds financed the acquisition of rights-of-way and the construction and reconstruction of highways on the state highway system and urban extensions thereof.

Fees, excises, or license taxes levied by the State of Ohio, relating to registration, operation, or use of vehicles on public highways, and gasoline excise and highway use taxes funded the debt.

The State issued all of the \$500 million in Highway Improvement Bonds authorized to be issued. The final maturity date for the bonds was October 15, 1989.

IMPROVEMENT BONDS

Section 2f of Article VIII, Ohio Constitution, as approved by voters on November 5, 1963, authorized the issuance of Improvement Bonds. The vote was: Yes—Yes—1,397,971; No—922,687.

Improvement Bonds financed land acquisition and building construction projects for community colleges, municipal universities, and university branches and for state functions, activities, offices, and institutions. The bonds also provided funding for the construction of classroom facilities, for the public schools leased or sold by the State to public school districts unable to provide adequate facilities without assistance from the State and assistance in the development of the State by the acquisition of lands for water impoundment sites, park and recreational uses and conservation of natural resources.

Borrowing was limited to \$100 million a calendar year, and the bonds could not be outstanding for more than 30 years.

Cigarette tax was the primary revenue source that funded the debt service on the bonds.

The State issued all of the \$250 million in Improvement Bonds that had been authorized to be issued, and the bonds were fully retired by April 15, 1975.

CAPITAL IMPROVEMENTS CONSTRUCTION BONDS

Section 2e of Article VIII, Ohio Constitution, as approved by voters on November 8, 1955, authorized the issuance of \$150 million in Capital Improvements Construction Bonds. The vote was: Yes—1,154,976; No—909,303.

The bonds financed the costs of acquiring, constructing, reconstructing and otherwise improving and equipping buildings and structures, excluding highways, and for the purpose of acquiring sites for such buildings and structures, for the State's penal, correctional, mental and welfare institutions; for the state-supported universities and colleges, for classroom facilities leased or sold by the State to public school districts unable within limitations provided by law to provide adequate facilities without assistance from the State; and for state offices.

The borrowing was limited to \$30 million a calendar year. All Capital Improvements Construction Bonds matured within 20 years from the date of issuance, and no more than \$75 million was expended for state-supported universities and colleges, public school classroom facilities and state offices, and no more than \$75 million was expended for penal, correctional, mental and welfare institutions of the State. The State deposited the proceeds from the sale of the bonds in the Capital Improvements Construction Fund.

Cigarette tax was the primary source of revenue used to fund the debt, which was initially deposited in the Improvements Bond Retirement Fund for subsequent transfer to the Capital Improvement Bond Retirement Fund, the fund that serviced the costs of the Capital Improvements Construction Bonds.

The State issued all of the \$150 million in Capital Improvements Bonds that had been authorized to be issued. Final maturity for the bonds was June 15, 1977.

MAJOR THOROUGHFARE CONSTRUCTION BONDS

Section 2c of Article VIII, Ohio Constitution, as approved by voters on November 3, 1953, authorized the issuance of \$500 million in Major Thoroughfare Construction Bonds. The vote was: Yes—1,035,869; No—676,496.

The bonds financed the costs of rights-of-way acquisition and construction and reconstruction of highways on the state highway system. The borrowing was limited to \$125 million per calendar year. The State deposited the proceeds from the sale of these bonds into the Major Thoroughfare Construction Fund.

Fees, excises, or license taxes levied by the State of Ohio, relating to registration, operation, or use of vehicles on public highways, and gasoline excise taxes funded the debt.

The State issued all of the \$500 million in bonds that had been authorized to be issued. Final maturity for the bonds was September 15, 1972.

VIETNAM CONFLICT COMPENSATION BONDS

Section 2j of Article VIII, Ohio Constitution, as approved by voters on November 6, 1973, authorized the issuance of \$300 million in Vietnam Conflict Compensation Bonds. The vote was: Yes—1,650,120; No—647,629.

The bonds financed compensation to those Ohioans who served in the military during the Vietnam Conflict. Compensation provided was in cash, or, if elected, in educational assistance.

The State only issued \$185 million of the \$300 million in Vietnam Conflict Compensation Bonds authorized to be issued, and the bonds were fully retired by October 15, 1989.

KOREAN CONFLICT COMPENSATION BONDS

Section 2d of Article VIII, Ohio Constitution, as approved by voters on November 6, 1956, authorized the issuance of Korean Conflict Compensation Bonds. The vote was: Yes—2,202,510; No—889,245.

The bonds financed the payment of bonuses to persons serving in the U.S. Armed Forces between June 25, 1950 and July 19, 1953. To qualify, a recipient had to be an Ohio resident for not less than one year immediately preceding entry into the armed forces and had to have been separated from the Armed Forces under honorable conditions or still be in the service.

The payment, which had to have been made before January 1, 1959, was set at \$10 for each month of active domestic service and \$15 for each month of active foreign service with the total amount of compensation to be paid to any one person not to exceed \$400.

Of the \$90 million authorized to be sold in bonds, only \$60 million in bonds were sold on May 1, 1957. Funds to retire this debt were provided by a yearly 2/10 mill state levy on all taxable property on the general tax lists of all counties in the State of Ohio.

WORLD WAR II COMPENSATION BONDS

Section 2b of Article VIII, Ohio Constitution, as approved by voters on November 4, 1947, authorized the issuance of World War II Compensation Bonds. The vote was: Yes—1,497,804; No—478,701.

The Commissioners of the Sinking Fund were authorized to issue and sell a maximum of \$300 million of the bonds to finance the payment of compensation to certain of Ohio's citizens who served in the U.S. Armed Forces during World War II or to certain of their survivors.

Of the \$300 million in bonds authorized to be issued, the State issued only \$212.5 million in bonds.

GLOSSARY

Bond Proceeds	For purposes of this report, the “Bond Proceeds” account can include bond premiums to be applied to future debt service payments, proceeds from which bond issuance costs can be paid, and unspent proceeds also to be applied to future debt service payments in cases when actual bond issuance costs were less than originally estimated at the closing of a bond deal.
General Revenue Fund (GRF)	The GRF is the primary operating fund of the state. This fund receives the unrestricted revenues of the State, primarily from such sources as the personal income tax, the sales and use tax, the corporate franchise tax, and the public utilities excise tax.
Interest	The fee charged a borrower for the use of borrowed money, usually expressed as an annual percentage of the principal.
Interest Rate Swap	An exchange of interest payments on a specific principal amount, as agreed under a counterparty agreement. An interest rate swap usually involves two parties, but can involve more. Often, an interest rate swap is an exchange of a fixed amount per payment period for a payment that is not fixed (the floating side of the swap would usually be linked to another interest rate, often the London Inter-Bank Offer Rate, also known as the LIBOR rate or the Bond Market Association rate, also known as the BMA index). In an interest rate swap, the principal amount is never exchanged with a counterparty; rather, it is just a notional principal amount. Also, on a payment date, usually only the difference (i.e., the net) between the two payments is turned over to the party that is entitled to it, as opposed to exchanging the full interest amounts.
Maturity Date	The date when payment of a debt comes due.
Net Interest Cost (NIC)	Under the NIC method, the total dollar amount of interest payable over the life of the bonds is adjusted by the amount of premium or discount; this method does not take into account the time value of money. Rates within this report using the NIC method are noted.
Principal	The amount of money borrowed.
Series	A group of bonds issued at the same time, but with different maturity dates and stated interest rates.
True Interest Cost (TIC)	Under the TIC method, interest cost is defined as the rate, compounded semiannually, necessary to discount the amounts payable on principal and interest maturity dates to the purchase price of the bonds; this method does take into consideration the time value of money. All rates within this report are reflected using the TIC method unless otherwise noted.
