CTAO Fall Conference 2019
Course Description Quick Guide

Course Name	Course Description
Bankruptcy Proceedings - A Deeper Dive Amy L Bostic, Attorney, Chapter 7 Bankruptcy Trustee , Luper Neidenthal & Logan, Ken Richards, Principal, Rea & Associates, Christal Caudill, Attorney, Chapter 7 Bankruptcy Trustee , Caudill Law Group	At our Spring Conference, treasurers were exposed to a high level overview of Bankruptcy proceedings. Many treasurers requested the opportunity to learn more about the process and the opportunity to ask questions to help them better understand these proceedings. We are inviting back our same panelists to take a deeper dive into the bankruptcy issue, and engage in a free-flowing dialogue to answer treasurers' questions.
Cybersecurity Fraud & Protection Services: What Are The Latest Threats and What Can You Do To Protect Your County? Don Boian, Cybersecurity Outreach Director, Huntington Bank	Cyberthreats do not discriminate!! Therefore, it is imperative for county treasurers to stay up-to-date on the different types of attacks, how to recognize them, and how to prevent them from happening. Huntington National Banks Cybersecurity Outreach Director, a 30 year NSA Defense Intelligence Executive, will walk county treasurers through the new maze of cyberthreats, and how to proactively deal with them to protect their counties' financial investments.
Leveraging Treasury Tax Collection Expertise Across Your County Through SaaS Alec Yannoulis, Sales Director, AutoAgent Data Solutions	Treasurers are looking for ways to optimize and secure the service their constituents require for more web and mobile solutions. A goal of treasurers is to secure customer's data, eliminate paper, and delight users with a world class solution that simplifies the process of viewing and paying taxes and then leveraging this technology across the county to present a consistent and simple checkout experience.
Blockchain Technology: What Is It And How Do We Regulate It? Rick Carfagna, State Representative House District 68, Ohio House of Representatives, Anthony Dean, Lead Engineer, Safechain	We all hear or read about Blockchain but what is it actually and how may it impact county treasurers? A blockchain is, in the simplest of terms, a time-stamped series of immutable record of data that is managed by cluster of computers not owned by any single entity. Each of these blocks of data (i.e. block) are secured and bound to each other using cryptographic principles (i.e. chain). County treasurers will hear from SafeChain, a local software firm that is specializing in blockchain technologies, which will provide them with an overview of what to expect. Additionally, State Representative Rick Carfagna has introduced legislation in the Ohio House to try and begin to put some guardrails around blockchain technologies and would like to discuss his approach with county treasurers. For county treasurers, this could mean using advanced software technologies, including blockchain, to increase the speed and security of financial & property transactions.
A Federal Perspective On Audit Proceedings Jacquelyn Hall-Carrillo, Audit Manager, Defense Finance and Accounting Services (DFAS)	Although county treasurers deal with county finances and state regulations regarding their operations, it is helpful for them to also have other perspectives on public finance from other areas of government. Helping them gain an understanding of the federal perspective will help to broaden every treasurer's horizons on public finance. This course will provide an overview on how the federal government does internal auditing, a presentation on the new Yellow Book (Government Auditing Standards), a presentation of what the Association of Government Accountants is, and a presentation on the Certified Government Financial Manager (CGFM) credential.
Fifth Third Presents - An Economic Update and Outlook Tom Jalics, Director of Asset Allocation, Fifth Third Investment Management Group	This session will provide participants with updates on the current economic conditions. Participants will gain a better understanding of current market conditions and outlook, and how it will impact their investing. It will include information on both the domestic and global economies. The presenter is the Director of Asset Allocation for Fifth Third Investment Management Group.
